# CONNECTED WASH
Connecting the machine to the network

This manual applies to the following machines with black display:

UC Series (V02)
PT Series (V02)

CTR Series

Have you already registered at **www.connected-wash.com/start**? Are all requirements met for CONNECTED WASH (see: **http://www.connected-wash.com/faq**)? Then you can connect the machine to your network in 3 steps.
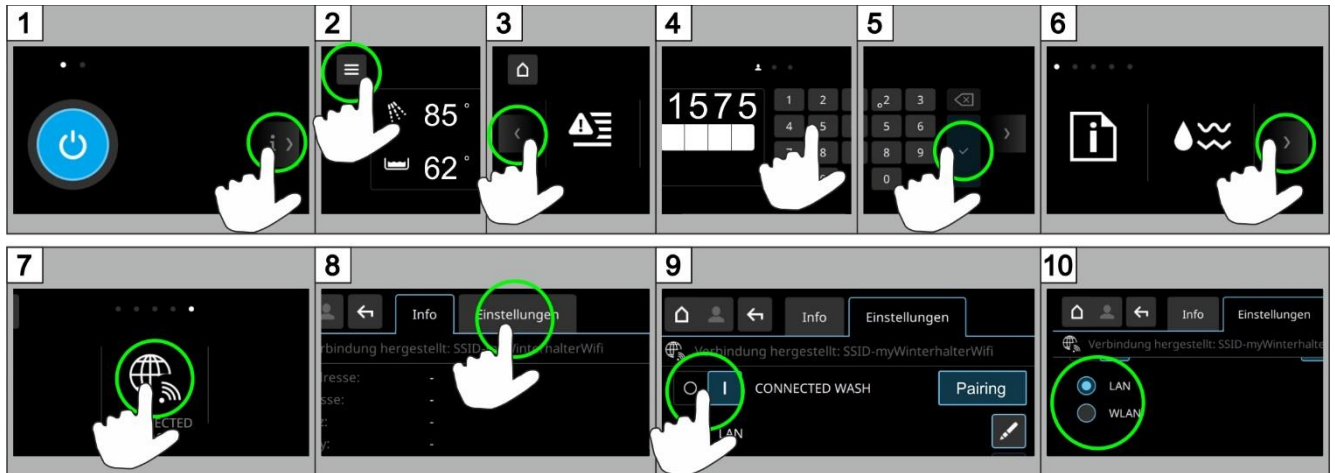

Step 1

Activate CONNECTED WASH.
▶ 1

Step 2

Check connection.
▶ 2

Step 3

Check the date and time.
▶ 3

1. Activating CONNECTED WASH

10	➤ Select LAN or WLAN.
INFO	If you use a MAC filter: Share the warewasher's MAC address. You can find the MAC address under Register Info.

1.1 LAN version

➤ Ensure that the LAN cable is connected.

➤ Continue with chapter ▶ 2

➤ Deactivate DHCP if you are not working with the default setting:

1.2 WLAN version
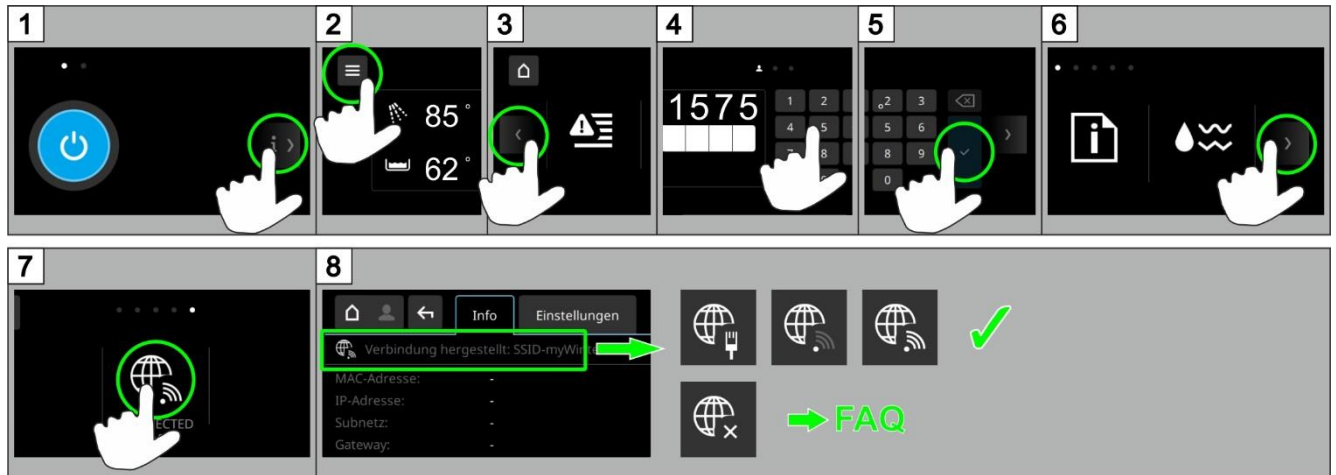

➤ Select your own network.

➤ Continue with chapter ▶ 2

2. Checking connection

In this step, check if there is a connection between the machine and network router.

➢ Access PIN Menu:

If this pictogram in Image 8 is shown, wait approx. 30 seconds. If no other pictograms are shown after this time, please follow the instructions in our FAQ: **http://www.con-nected-wash.com/faq**. Here you can also find an analysis tool that helps you with troubleshooting.
➢ Exit PIN menu:
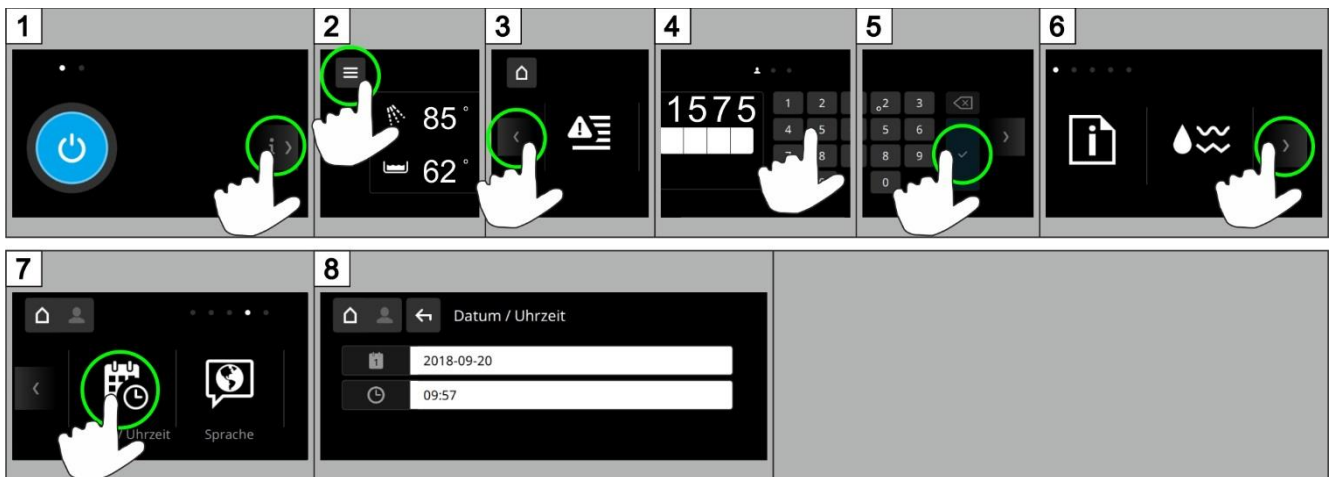

3. Checking the date and time

To make sure that the data transfer delivers correct results, the current date and time must be set correctly.
➢ Check settings.

If the date and/or time are not set correctly:

➢ Adjust settings.

➢ Exit PIN menu:

Is your warewasher operational and successfully connected to your network? Then activate CONNECTED WASH on your machine now. You can find detailed instructions here:
ACTIVATE CONNECTED WASH (PAIRING).
